TELECOMMUNICATIONS AND RADIO ENGINEERING

CONTENTS FOR 1975

Number 1

	Page English	Russian
PART 1 TELECOMMUNICATIONS Volume 29		
MULTICHANNEL RADIO COMMUNICATION		
L. Ya. Kantor, A. M. Model, V. M. Zayev, V. I. D'yachkov, G. D. Novospasskiy, A. I. Sinyavskiy and A. V. Agafonov: The "Gradient" Transmitter-Receiver System for Satellite Communications	1	1
B. L. Lokshin, Yu. M. Mel'nikov, O. P. Frolov and V. G. Yampol'skiy: Methods for Improving the Noise Immunity of Radio Circuits	5	6
A. P. Manovtsev and Yu. A. Zaytsev: Estimate of the Actual Characteristics of a Phase-Shift Keyed System	9	12
AUTOMATIC SWITCHING AND TELEPHONY		
O. A. Loginova and M. Yu. Rutenburg: The ATSK-U Monitoring-Test Equipment	15	18
A. G. Popova: Structure of the Control Devices of Quasi-Electronic ATS's	18	23
Yu. V. Solovoy: Structural Synthesis of Connection Units for the Switch Elements of Quasi-Electronic Systems	22	27
APPLICATION OF ELECTRONIC COMPUTERS IN COMMUNICATIONS ENGINEERING		
V. A. Shur and N. K. Semochkin: "Uchet" — An Automated System for Collecting Data on Long-Distance Telephone Calls	26	31
COMMUNICATIONS SYSTEMS AND NETWORKS		
G. M. Matlin and A. P. Savin: Application of Electronic Computers for the Solution of Problems in Telephone Networks Design	29	34
B. A. Romanenko: Graphical-Analytical Method of Optimizing the Characteristics of Secondary Communication Networks	33	40
DATA TRANSMISSION		
V. M. Dvoretskiy and L. K. Kiselev: Analytical Calculation of the Pulse Response of a Tone-Frequency Channel	39	47
E. N. Bobreshov, G. A. Emel'yanov, V. I. Kopeikin, and A. T. Khomyakov: Quality of Digital-Data Transmission over City-Telephone Lines	44	52
Yu. P. Kulikov: Calculation of the Error Probability in Channels with Communications Interruptions and Impulse Noise	48	55

	Page English	Page Russian
N. S. Ivanov and V. P. Novichkov: Error Distribution when Transmitting Data in an UHF Radio Channel	51	58
V. A. Binevich, B. P. Nikolayev and A. P. Pipkin: An Integrated Microcircuit (IMC) Automatic Equalizer of Interdigit Distortions	54	61
CIRCUIT THEORY		
M. L. Leinov and V. N. Zhelnov: Synchronous Filters and Ways of Constructing Them with Integrated Microcircuits	57	65
I. N. Vostrova and V. M. Kantor: Monolithic Quartz Filters	61	69
PART 2 RADIO ENGINEERING Volume 30		
Y. N. Bakayev and V. I. Doronin: The Effect of Restricting the Information Spectrum on the Noise Immunity of AM, PM, and FM Communications Systems	67	1
A. P. Bilenko and I. V. Pakhomov: Correlation of Modulated Signals in Terrestrial Mobile Radio Communications Systems	71	6
A. A. Zborovskiy and V. V. Kobzev: The Noise Immunity of Pulsed Optical Signal Reception in the Atmosphere for Low Background Levels	73	9
Z. A. Abbyasov and V. P. Styts'ko: Calculation of the Noise in a Gyrator Tuned Circuit and Gyrator Inductance	76	12
L. E. Varakin and A. S. Gusel': A Comparison of an Analytical Signal and Exponential Signal	80	17
S. M. Gol'din: Determination of the Conversion Products at the Output of a Network Having Complex Nonlinearity Fed by a Sum of Sinusoidal Signals	83	21
L. Ya. Mogilevskaya and Yu. L. Khotuntsev: Problems of the Synthesis of Impedance-Matching Networks	90	29
A. M. Model', V. A. Stuzhin and Yu. A. Ber: Series Resonator in a Rectangular Waveguide	95	45
G. I. Fridman: Operation of an Oscillator with Automatic Plate Modulation in the Over-Voltage Mode	99	51
M. K. Belkin and A. L. Kropivnitskiy: Parametric Signal-Structure Filters for AM Signals	104	57
B. N. Mityashev, A. S. Terent'yev and V. N. Gubarchuk: Determination of the Time Position of Pulses when the Amplitude Dynamic Range is Large	107	61
A. V. Kandinov and Yu. G. Moiseyev: Analysis of the Transient in an Automatic Gain Control System Using a Square-Law Detector	111	73
V. B. Minukhin: Phase Distortions of Signals in Magnetic Recording Equipment	114	77
BRIEF COMMUNICATIONS		
L. I. Volgin: The Stabilizing Effect of Negative Feedback	121	85
E. F. Korolev: Connection Between the Three-Dimensional and Two-Dimensional Stray Fields of Magnetic Heads	122	86
L. M. Gel'man: Optimization of the RC-section of a Standard Receiver Channel for Detecting a Modulated Signal	124	88
V. A. Senderskiy: Noise Immunity of Correlation Reception	125	91
E. S. Kochanov: Capacitance of a Planar Strip Line Allowing for the Dielectric Substrate Width	127	92
L. S. Vilenchik: Spectrum of a Random-Waveform Pulse Sequence	128	94
FOR THE ENGINEER		
V. I. Voroskolevskiy: The Equivalent Circuit of an Operational Amplifier	130	96
T. D. Gavra and I. A. Ermolenko: An Ultrashort-Wave Quartz Oscillator with Automatic Amplitude Control	133	102
E. N. Baskakov and L. N. Stepanova: An Amplifier Employing a Transistor Equivalent of the p-n-p-n Structure	134	103

Number 2

	Page English	Russian
PART 1 TELECOMMUNICATIONS Volume 29		
TELEVISION		
A.I. Lebedev Karmanov, E.S. Glazman and M.M. Kozlovsky: Television Transmitters Modulated at an Intermediate Frequency	1	1
A.K. Kustaryev and N.G. Deryugin: Control of the Fidelity of Color Rendition in Television	7	8
MULTICHANNEL CABLE COMMUNICATIONS		
Yu.D. Farber: The Future Prospects of Developing a Nation-Wide Trunk Network	11	12
A.V. Kogan: Relationship Between the Parameters of a Chain of Regulators	16	18
WIRE AND RADIO BROADCASTING		
I.A. Shamshin: The Prospects for the Development of Cable Broadcasting in the USSR	19	22
S.L. Mishenkov and V.A. Nyurenberg: Frequency Preemphasis in Broadcast Program Transmission Channels	22	25
AUTOMATIC SWITCHING AND TELEPHONY		
B.S. Livshits and N.P. Mamontova: Classification of Systems for Switching Telephone Channels	24	28
TRUNK LINE RADIO COMMUNICATIONS		
V.V. Vyaznikov and Z.A. Shergina: Effect of Propagation Conditions on the Quality of Communications in a Short-Wave Radio Channel Multiplex System	34	39
G.K. Solodovnikov, M.N. Chalaya and A.R. Yagovkin: Some Fading Characteristics of Ultra-Short-Wave Satellite Signals	38	43
COMMUNICATIONS LINES		
V.F. Suchkov and V.A. Aron: Development of Helical Filters for Waveguide Communications Lines	41	46
B.V. Fedulov: The Phase Constant of a Cable with Corrugated Outer Conductor	44	49
SIGNAL GENERATION, CONVERSION, AND AMPLIFICATION		
A.T. Balanov and V.V. Ivanyutin: Amplification Region of a Resistive Stage with a Capacitive Load Using a Bipolar Transistor	47	52
A.A. L'vovich: Design of Noise-Immune Counter-Type Frequency Dividers	52	58
L.D. Kislyuk and L.Ya. Lipkin: Noise Immunity of a Noncoherent Digital Demodulator of DPSK Signals	56	61
PART 2 RADIO ENGINEERING Volume 30		
V.S. Nemanov and S.E. Yur'eva: An Automatic Regulator of Audio Signal Level with Prediction. Part 2	59	1
V.I. Khizhnichenko: The Transmission of Random Signals Through m-Circuits	62	6
B.P. Kalinichev: Reception of Signals in the Presence of Nearly Normal Interference	68	13
E.F. Kvashnin, K.A. Zaretskiy, V.N. Zuev and V.L. Savinykh: A Discrete Signal with Linear Period Variation	72	18
K.N. Shchelkunov: Estimation of the Noise Immunity of Modems for Optical Communications Channels	77	24
L.Ya. Mogilevskaya and Yu.L. Khotuntsev: Synthesis of Wideband Interstage Networks	81	29
V.V. Vasil'ev: Synthesis of the Structure of a Nonlinear Filter	85	36

	Page English	Page Russian
V.S. Andreev: The Theory of the Synchronization of Oscillatory Systems Containing Negative Impedance Devices	92	43
V.M. Sidorov, O.V. Golovin and A.V. Yel'tsov-Strelkov: The Static Sensitivity of Receivers of Frequency-Shift Keyed Signals	101	67
V.P. D'yakonov: Calculation of the Transients in an Avalanche Transistor Pulse Circuit	107	75
V.A. Gurov: Thorough Investigation and Tabulation of the Pade Approximation Mechanism, Used to Synthesize Multistage Pulse Amplifiers	111	80
V.G. Yarotskiy and G.A. Silant'yev: Analysis of the Range Measurement Error in a Tapped Delay Line Rangefinder for a Bell-Shaped Signal	117	87
A.I. Goron: Variational Method of Determining the Residual Magnetization of Thin Magnetic Tapes	124	95
BRIEF COMMUNICATIONS		
Yu.V. Pimenov: Use of the Shadow Current Method in Problems of Diffraction by Arbitrarily Positioned Plane Surfaces	129	101
V.V. Serov: The Noise Immunity of a Coherent Communications System with Differential Phase-Shift Keying in a Channel with Rayleigh Fading	130	102
L.G. Gazyan and D.A. Duplenkov: Some Experimental Results of a Study of Strip-Line Waveguide Junctions	132	105
FOR THE ENGINEER		
P.A. Shpan'on and Yu.F. Pavlenko: Method of Measuring the Modulation Linearity of Multistage Generators of Wideband FM Signals	133	106

Number 3

PART 1
TELECOMMUNICATIONS
Volume 29

AUTOMATIC SWITCHING AND TELEPHONY		
V.V. Malinnikov, L.B. Marimont, E.V. Novozhilova and B.V. Rossikov: Centralized Maintenance Service for City Telephone Exchange Subscribers	1	1
E.P. Bulaevskiy, O.A. Ermakov, Yu.N. Kornyshev, and N.A. Chumak: Measurement of the Parameters of Telephone Traffic in Rural Telephone Networks	5	6
CABLE AND RADIO BROADCASTING		
I.S. Shlyuger: Choice of Carrier Frequency Separation in Long-Medium Wavelength Band	11	15
O.V. Dogadin: A Low-Frequency Hybrid Circuit Amplifier	14	18
L.B. Sheykman: Automatic Control of Cable Broadcast Circuits in a Limited Frequency Band	17	23
MULTICHANNEL RADIO COMMUNICATIONS		
V.G. Yampol'skii, V.G. Petrova and V.V. Dudykin: Effect of Protective Covers on the Electrical Characteristics of Antennas in Radio-Relay Links	19	25
A.I. Mamatov, A.A. Matveyev and A.D. Strakhov: Reconstruction of a Radio-Relay Link without Interrupting Communication	23	30
V.S. Akimov, N.I. Nikulin, E.L. Ratbil, O.V. Ryazantseva, V.S. Sanin, and A.V. Sokolov: Cooled Parametric Amplifier with a Noise Temperature of 20 K Using Germanium Diodes	25	32
ANTENNA-FEEDER DEVICES		
V.M. Antonenko, N.S. Belevich, I.Z. Berlyavskiy, V.I. Krutikov and A.M. Model: The Waveguide Assembly of a Satellite Communications Earth-Station	28	35

	Page English	Page Russian
V.A. Stuzhin and V.I. Krutikov: Equipment for Multiplexing the Waveguide Channels of Radio-Relay Systems	31	39
K.A. Tatsis: Television Transmitting Antennas in the Meter and Decimeter Wavebands	33	41
AUTOMATIC CONTROL SYSTEMS AND COMMUNICATIONS		
V.R. Ivanov: Economic-Mathematical Model for the Management of the Construction of Communications Facilities	36	45
DATA TRANSMISSION		
Yu.A. Tamm: Data Transmission Signal Levels at the Output of a Narrowband Filter	40	49
V.M. Maslovskiy, V.E. Monakhov, and S.A. Osmalovskiy: Design of a Correlation Data-Transmission System	44	53
Z.N. Zeliger: Clock Synchronization Systems (Review)	47	56
G.I. Zvereva: Delay of Information Transmission in Data-Transmission Channels due to Noise	52	60
CONTROL AND MEASUREMENTS		
Yu.M. Veshkurtsev: Statistical Analysis of Relative Phase Shifts	55	63
A.V. Kotel'nikov, G.T. Rubailo, and N.E. Uvarov: An Instrument for Measuring the Ratio of Time Intervals	59	67

PART 2
RADIO ENGINEERING
Volume 30

A.S. Bogachev: Selection of Phase Increment Value in Pseudocoherent Radar With Artificial Antenna Aperture	62	1
V.A. Kisel: Synthesis of Optimum Signals for Integral Reception Systems	66	6
V.I. Chaikovskiy and V.G. Obukhovskiy: Use of a Spectrum Analyzer for Optimum Detection of an RF Pulse Buried in Noise	71	13
M.S. Yarlykov and M.A. Mironov: Optimum Nonlinear Filtering of Gaussian Continuous Messages	72	15
S.M. Kartushin and N.P. Khvorostenko: Some Properties of Inertialess "Decision Feedback"	78	22
E.L. Pustovoitov: Characteristics of Series-Connected Nonlinear Devices with Amplitude-Phase Conversion	82	27
K.V. Rozov: Analysis of the Noise Immunity of Compound Digital Filters	86	33
L.N. Loshakov and E.B. Ol'derogge: Calculation of the Dispersion Characteristics of a Slow-Wave Structure of the "Helix with Straps" Type	92	40
A.S. Belov and V.A. Khomyakov: Synthesis of Optimum Binary Power Dividers	97	47
K.I. Chayko: A Statistical Method for Estimating the Characteristic Edge Distortions of PSK Signals	102	52
M.S. Yefremov, V.A. Rabotkin and I.M. Sal'nikov: Radiation Spectra of RF Pulses with Typical Amplitude Distortions	106	63
A.Ya. Sergeev and M.A. Utkin: Analysis of a Transistor HF Power Amplifier	109	74
A.Z. Khaykov: Features of the Analysis of Multicavity Klystrons for Amplifying a Multifrequency Signal	111	77
LETTER TO THE EDITORS		
A.P. Gitnik: The Distribution of Modulus of a Divariate Normal Random Vector	118	85
O.P. Frolov: A Method for Improving the Matching of Horn Antennas	119	86
N.D. Kozyrev and A.A. Denisov: The Switching Mode in a Five-Arm Waveguide Divider with a Ferrite	120	87
V.V. Vasil'ev and L.P. Kotenko: A Method of Reducing the Effectiveness of Regular or Strongly-Correlated Components of Interference	121	89
A.N. Demenin: Functional Methods for Specifying Random Processes in Statistical Radio Engineering	123	91
G.G. Veksler: Energy Characteristics of Power Amplifiers	125	94

	Page English	Page Russian
FOR THE ENGINEER		
V.M. Kibakin: An Amplifier with a Tracking Power Supply	127	96
A.A. Meyer: A Circuit for Dividing Periodic Signals	129	99
A.M. Mallyar: Design of Circuits for Low-Frequency Compensation of Transistor Stages	130	101
L.G. Gazyan and D.A. Duplenkov: A Compact Microwave Impedance Meter	134	106

Number 4

PART 1
TELECOMMUNICATIONS
Volume 29

TELEVISION		
V.D. Kuznetsov: The Reflection of Television Signals Under Urban Conditions	1	1
V.N. Ulyanov, N.G. Khitrovo and V.V. Makarov: The Design of Clamping Circuits for Television Equipment	6	7
MULTICHANNEL WIRE COMMUNICATIONS		
A.S. Blokhin: Development of Long Distance Communications Facilities	11	12
B.P. Borisov: Introduction of the BK-60-2 Trunkline Equipment into Commerical Service	15	17
TRUNKLINE AND LOCAL RADIO COMMUNICATIONS		
A.D. Taranenko and V.G. Yakhnin: A Promising Short-Wave Radio Communications Section	24	25
V.N. Troitskiy, A.A. Shur, N.P. Gorbacheva and A.M. Zakharov: Frequency Dependence on Signal Level in Long-Distance Propagation of UHF Waves	26	28
V.K. Mel'nik: Selection of the Erasure Zone in Code-Time Signal Discrimination	34	36
AUTOMATIC SWITCHING AND TELEPHONY		
LM. Gol'shtein: Introduction of Push-Button Apparatus in City Telephone Exchange.	39	41
P.D. Kutashov and I.KH. Movshovich: Improvement of the Circuits in Subscriber's Line Equipment and of the Controlling Devices in ATSK-U	44	47
TELEGRAPHY AND FACSIMILE		
I.L. Tarnopol'skiy, I.A. Parikozhka, and Yu.P. Parkhomov: Automatic Remote Control of Receiver Margin	49	53
S.T. Malinovskiy, G.I. Kozhina, E.B. Bronner and V.Yu. Deart: A Probabilistic Method for Determining the Load in Telegraph Communications	52	56
ELEMENTS AND CIRCUITS		
V.P. Sizov: Phase Discriminator with Feedback	56	60
K.E. Zaslavskiy: Analogs of Differential Systems Using Active Elements	61	66
V.P. Stytsko: Selective HF Amplifiers Using Gyrator Microcircuits	64	70
L.S. Gel'bshtein and A.I. Kozlov: Phase-Lock Synchronization System with a Memory	66	72

PART 2
RADIO ENGINEERING
Volume 30

D.V. Ageyev: Intensity of a Signal with Nonsinusoidal Carrier	69	1
V.K. Marigodov: On the Carrying Capacity of Information Transmission Systems with Optimum Linear Signal Preemphasis	75	9

	Page English	Russian
Yu.V. Arbuzov: Experimental Investigation of a Tropospheric Channel by Pulse Radar With Active Response	79	14
V.S. Ostroukhov and G.I. Tuzov: Correlator with Suppression of the Correlation Function Sidebands	82	19
V.F. Mukhin: Conversion of the Oscillation Spectrum on Passing Through a Frequency-Division Counter	86	24
V.V. Golovko, A.K. Shashkin and V.D. Shmatkov: Symmetrical Diode Clipping of Radio Signals	89	27
E.D. Zyukova and I.N. Teplyuk: Design of an Active RC Filter with Transfer Function Nulls	92	31
V.K. Reznichenko, N.N. Kazandzhan and Yu.M. Kalnibolotskiy: First- and Second-Order Instability in Radio Circuits	97	38
O.V. Mironov, Yu.I. Choni and V.I. Chuikov: Synthesis of Nonuniform Lines for Broadband Matching from Experimentally Measured Values of the Load Reflection Coefficient	101	49
V.A. Lyubushkin and V.N. Shkalikov: The Effect of Time Delay in the Channels on the Characteristics of Switching Frequency Multipliers	104	53
L.L. Moskvitin: The Amplitude Characteristics and Gain Stability of Tunnel Amplifiers	109	60
V.I. Belitskiy: Analysis of the "Serial" Operating Modes in a Transistor Multiphase Multivibrator	115	67
V.N. Ustyuzhaninov: Calculation of the Crystal Area of Composite Integrated Microstructures	120	73
BRIEF COMMUNICATIONS		
M.A. Rabinovich: A Statistical Model of Noise at the Output of a Frequency Discriminator	126	88
V.V. Leonov: Determination of the Errors in the Coefficients of the Transfer Function of a Linear System	128	90
V.A. Fedorchenko: Joint Distribution of Signals at the Outputs of a Number of of Nonlinear Processing Devices	130	93
G.I. Kutin: Evaluation of the Noise Immunity of an Autocorrelation Receiver for Wideband Signals	132	95
Yu.I. Tarakanov: Power Spectrum of Noise at the Output of an FM Discriminator	133	97
E.V. Borisov and Yu.L. Simonov: The Passband of a Matching Circuit with an Unstable Load	136	100
FOR THE ENGINEER		
P.A. Shpan'on, Yu.F. Pavlenko and A.F. Raikhman: A Method of Obtaining an FM Signal with Low Nonlinear Distortion of the Modulating Function	138	103
Yu.A. Manteifel: Matching an Impedance with a Tuned Circuit	139	104

Number 5

MULTICHANNEL WIRE COMMUNICATIONS

I.I. Grodnev and D.Ya. Gal'perovich: The Theory and Electrical Design of Superconducting Coaxial Cables	1	36
Z.I. Golyshko: Designing Bode Variable Corrective Networks on a Computer	6	41
S.N. Osipov and B.N. Fedorov: Asynchronous Methods of Multiplexing in the Design of an Integral Digital Communications Systems	10	45
ANTENNA-FEEDER DEVICES		
S.I. Belousov, I.T. Govorkov, R.V. Gurevich, G.A. Kliger and V.D. Kuzentsov: Analysis of Wire Feeders	14	49

	Page English	Page Russian
A.E. Aksenov and V.V. Chistyukhin: A Miniature Directional Coupler Based on Lines with Lumped Capacitive Coupling	17	53
V.I. Itskhakin: High-Power Cables for Antenna Feeders	20	56
CIRCUIT THEORY AND FILTERS		
N.A. Reushkin: Helical-Cavity Band-Pass Filters with External Capacitive Coupling	23	59
I.E. Efimov and A.G. Kocharyan: Microelectronic Active Filters Employing Distributed RC Structures	28	64
E.I. Kuflevskiy and V.E. Lankin: Active RLC Filters Employing Integrated Amplifiers	32	69
PART 2 RADIO ENGINEERING Volume 30		
O.N. Kis, Yu.F. Manerko and P.Ya. Nudel'man: RC-Network Synthesis According to a Specified Transfer Function over a Limited Frequency Range	35	17
L.A. Mironovskiy and V.A. Slayev: Equalization of the Variance of a Non-stationary Signal	40	24
S.M. Kartushin: Analysis of Lagless "Decision Feedback" by Means of Markov Chains	43	28
S.A. Ginzburg and A.G. Muradyan: Permissible Nonuniformities at the Layer Interface in a Two-Layer Multimode Fiber	47	34
P.A. Popov: The Realizability of Transfer Functions with Complex Load Resistances	52	40
G.K. Galimov and L.N. Kuznetsov: Calculation of the Profiles of Bifocal Twin Reflector Aplanatic Antennas	55	43
L.R. Notkin: The Construction of Function Generators with Remote Automatic Frequency Control	60	49
V.F. Samoylov, F.M. Ignatov and D.P. Brilliantov: A Step-Voltage Generator	63	53
V.V. Shakhgil'dyan and V.A. Petrov: Statistical Analysis of First-Order Phase Synchronizing Systems with a Switch	69	61
E.V. Voronetskiy, O.A. Chelnokov and Ya. Sh. Shirman: Hystereis Phenomena in Transistor Power Amplifiers	73	67
Ya.S. Itskhoki and P.M. Zhelyazov: Optimum Operating Conditions of a Driven Relaxation Oscillator using Integrated Micromodules with Transistor-Transistor Logic	80	76
R.M. Belyayev and L.S. Shibanov: Some Problems in Increasing the Density of Digital Magnetic Recording	85	83
BRIEF COMMUNICATIONS		
A.L. Kosova: Determination of the Noise Immunity of a Multichannel Communications System with Phase-Shift Keying	90	90
L.F. Gorshkov: Estimation of the a Posteriori Probabilities of Symbols in Communications Channels with Variable Parameters	92	92
FOR THE ENGINEER		
A.A. Egorov: The Design of Pulse Transformers	94	95
Yu.L. Bogorodskiy and L.G. Lishin: Methods of Calculating the Inductance of Coils having Prescribed Resistance-Frequency Characteristics	96	97
Ya.A. Tsar, S.V. Kara-Murza, N.P. Logunov and V.M. Petrov: A Compensating Microwave Antenna Amplifier	98	100
OPTICS IN RADIO — ENGINEER TRAINING		
L.I. Freydin: Laboratory Bench for Modeling Processes in Parametric Amplifiers	101	106
